PROFILE

Software Engineer with a strong background in software development, programming, and systems analysis. Experienced in solving complex problems and creating efficient, scalable solutions, with a strong focus on quality and performance. Demonstrates adaptability to different technologies and environments, maintaining a continuous interest in learning and growth in the technology field.

PROFESSIONAL EXPERIENCE

Datamentors

october 2025 - PRESENT

Full-Stack Developer - Full-Time

Full-stack development of internal and client-facing systems, working end-to-end across frontend, backend and database. Building and integrating features with a focus on scalability, performance and clean, maintainable code, while collaborating closely with the team on architecture and code reviews.

Universidade da Madeira

june 2025 - august 2025

Software Development - Intern

Full-stack web development internship, building features end-to-end with a React frontend and a Java/Spring Boot backend. Implementation of authentication, REST APIs and data persistence, applying best practices in version control, code review and testing.

Asseco PST

february 2024 - april 2024

Software Development - Intern

Development of a web application for data visualization using MySQL, with ReactJS on the frontend and Java with Spring Boot on the backend. Implementation of authentication and log filtering/analysis functionalities.

EDUCATION

Master's Degree in Software Engineering

2024 -PRESENT

Universidade da Madeira, Portugal

Bachelor's Degree in Software Engineering

2020 - 2024

Universidade da Madeira, Portugal
